

A Bibliography on Statistical Graphing Practices B. Dudek, October 6, 2010 version

Also see the section on statistical graphics in the stat toolkit bibliography.

Texts on Statistical Graphics and Graphing Data

- Card, S. K., Mackinlay, J. D., & Shneiderman, B. (1999). *Readings in information visualization : using vision to think*. San Francisco, Calif.: Morgan Kaufmann Publishers.
- Chen, C.-h., Härdle, W., & Unwin, A. (2008). *Handbook of data visualization*. Berlin: Springer.
- Cleveland, W. S. (1993). *Visualizing data*. Murray Hill, N.J.: AT&T Bell Laboratories; Published by Hobart Press.
- Cleveland, W. S. (1994). *The elements of graphing data* (Rev. ed.). Murray Hill, N.J.: AT&T Bell Laboratories.
- Cook, D., Swayne, D. F., & Buja, A. (2007). *Interactive and Dynamic Graphics for Data Analysis : with R and GGobi*. New York: Springer Verlag.
- Dalgaard, P. (2008). *Introductory statistics with R* (2nd ed.). New York: Springer.
- Few, S. (2004). *Show me the numbers : designing tables and graphs to enlighten* (1st ed.). Oakland, CA: Analytics Press.
- Fox, J. (2002). *An R and S-Plus companion to applied regression*. Thousand Oaks, Calif.: Sage Publications.
- Friendly, M., & SAS Institute. (1991). *SAS system for statistical graphics* (1st ed.). Cary, NC: SAS Institute.
- Friendly, M., & SAS Institute. (2000). *Visualizing categorical data*. Cary, NC: SAS Institute.
- Hamilton, L. C. (1992). *Regression with graphics : a second course in applied statistics*. Pacific Grove, Calif.: Brooks/Cole Pub. Co.
- Jacoby, W. G. (1997). *Statistical graphics for univariate and bivariate data*. Thousand Oaks, Calif.: Sage Publications.
- Jacoby, W. G. (1998). *Statistical graphics for visualizing multivariate data*. Thousand Oaks: Sage Publications.
- Keen, K. J. (2010). *Graphics for statistics and data analysis with R*. Boca Raton: Chapman & Hall/CRC. ([a very nice text that could be a textbook](#))
- Kosslyn, S. M. (1994). *Elements of graph design*. New York: W.H. Freeman.
- Robbins, N. B. (2005). *Creating more effective graphs*. Hoboken, N.J.: Wiley-Interscience.
- Theus, M., & Urbanek, S. (2009). *Interactive graphics for data analysis : principles and examples*. Boca Raton: CRC Press.
- Tufte, E. R. (1990). *Envisioning information*. Cheshire, Conn. (P.O. Box 430, Cheshire 06410): Graphics Press.
- Tufte, E. R. (1997). *Visual explanations : images and quantities, evidence and narrative*. Cheshire, Conn.: Graphics Press.
- Tufte, E. R. (2001). *The visual display of quantitative information* (2nd ed.). Cheshire, Conn.: Graphics Press.

- Tufte, E. R. (2006). *Beautiful evidence*. Cheshire, Conn.: Graphics Press.
- Tufte, E. R. (2006). *The cognitive style of PowerPoint : pitching out corrupts within* (2nd ed.). Cheshire, Conn.: Graphics Press.
- Unwin, A., Theus, M., & Hofmann, H. (2006). *Graphics of large datasets : visualizing a million*. New York: Springer.
- Wainer, H. (2005). *Graphic discovery : a trout in the milk and other visual adventures*. Princeton, NJ: Princeton University Press.
- Wallgren, A. (1996). *Graphing statistics & data : creating better charts*. Thousand Oaks, Calif.: Sage Publications.
- Ware, C. (2004). *Information visualization : perception for design*. San Francisco: Morgan Kaufman.
- Wilkinson, L., & Wills, G. (2005). *The grammar of graphics* (2nd ed.). New York: Springer.
- Young, F. W., Valero-Mora, P., & Friendly, M. (2006). *Visual statistics : seeing data with dynamic interactive graphics*. Hoboken, N.J.: Wiley-Interscience.

A few older classics:

- Baird, J. C. (1970). *Psychophysical analysis of visual space* ([1st ed.]). Oxford, New York,: Pergamon Press.
- Bertin, J. (1983). *Semiology of graphics*. Madison, Wis.: University of Wisconsin Press.
- Chambers, J. M., Cleveland W. S., Kleiner, B., Tukey, P. A. (1983). *Graphical methods for data analysis*. Belmont, Calif. Boston: Wadsworth International Group ;
- Cleveland, W. S., & McGill, M. E. (1988). *Dynamic graphics for statistics*. Pacific Grove, Calif.: Wadsworth & Brooks/Cole Advanced Books & Software.
- Cleveland, W.S. (1988). *The Collected Works of John W. Tukey, Volume V Graphics: 1965-1985*, Pacific Grove, CA: Wadsworth and Brooks/Cole Advanced Books and Software.
- Tukey, J. W. (1977). *Exploratory data analysis*. Reading, Mass.: Addison-Wesley.

Articles and Chapters - General Items:

- Anscombe, F.J. (1973). "Graphs In Statistical Analysis", *The American Statistician*, 27: 1721.
- Becker, R., & Cleveland, W. (1991). Take a broader view of scientific visualization. *Pixel*, 2(2), 42-44.
- Becker, R.A. and KellerMcNulty, S. (1996). "Presentation Myths", *The American Statistician*, 50: 112-115.
- Beniger, J. R., & Robyn, D. L. (1978). Quantitative Graphics in Statistics: A Brief History. *The American Statistician*, 32(1), 1-11.
- Bradstreet, T.E. (1999). "Graphical Excellence – The Importance of Sound Principles and Practices for Effective Communication", *Bulletin of the International Statistical Institute, Book 2*, 52nd Session, Helsinki, Finland, August 1018, 1999, 271-274. Duxbury Press.

Web Sites on Graphical Display, Statistical Graphing Software, and R

R software – related links

The R Project for Statistical Computing

The home page for R.

<http://www.r-project.org/>

Quick-R. A fabulous web page by Robert Kabakoff that is designed to help SPSS/SAS/STAT users migrate to R. Actually the best web site I have found on R.
<http://www.statmethods.net/>

R Graphical Manual. A collection of R graphs from various R packages
<http://bm2.genes.nig.ac.jp/RGM2/index.php>

An R and S-PLUS Companion to Applied Regression
John Fox's text to accompany his Regression text
<http://soserv.socsci.mcmaster.ca/fox/Books/Companion/index.html>

The R Graph Gallery page. Extensive. Great place to explore the capabilities in R.
<http://addictedtor.free.fr/graphiques/>

GGobi
<http://www.ggobi.org/>

GGobi is the primary open source visualization program for exploring high-dimensional data. The rggobi package in R permits transfer of data/objects between the two application.

GTK+
<http://www.gtk.org/>
The premier open-source graphical user interface toolkit.

Rggobi
<http://www.ggobi.org/rggobi/>

Lets R talk to ggobi.

RGtk2

<http://www.ggobi.org/rqt2/>

Lets R talk to GTK+.

Classify

<http://had.co.nz/classify/>

An R package that enables exploration of classification boundaries in high dimensions.

GGPLOT2

<http://had.co.nz/ggplot2/>

An amazing R package that contains a large set of functions to become a replacement framework for plotting functions in the base package of R and the lattice capabilities.

Mondrian

<http://stats.math.uni-augsburg.de/Mondrian/>

"Mondrian is a general purpose statistical data-visualization system. It features outstanding visualization techniques for data of almost any kind, and has its particular strength compared to other tools when working with Categorical Data, Geographical Data and LARGE Data." (description from web site)

It uses [Rserve](#) to link to R and use functions in its base and add-on packages.

It also has capabilities in mapping/spatial analysis.

exploRase

http://www.metnetdb.org/MetNet_explorase.htm

"exploRase is a [MetNet](#) tool written in [R](#) for the exploratory multivariate analysis of Systems Biology data. It provides a graphical user interface (GUI) on top of the analysis functionality provided by [R](#) and the [Biocductor](#) project." (description taken from the exploRase page)

Although a bioinformatics focus, it is a nice model of what can be achieved and is a nice demo of integration of multiple open sources applications.

Web home of Theus and Urbanek text cited above.

<http://www.interactivegraphics.org/Home.html>

Contains R code for their graphics.

Using Color in R

<http://research.stowers-institute.org/efg/Report/UsingColorInR.pdf>
